

Hose Connector Accessories

Selection

Barbed hose connectors are recommended for installing flexible hose to the pump inlet port on models D-10 and larger. Barbed hose connectors are suitable for metallic pump heads only.

Pump Model	Description	Part Number
D-10/D-12	1" NPT x 1-1/4" hose barb	D10-111-2201
H-25	1-1/2" NPT x 2" hose barb	D25-111-2201
D-35	2-1/2" NPT x 3" hose barb	D40-111-2201

Replacement Hydraulic Ends

Complete Hydraulic End Assemblies are available as replacement items. The Hydraulic End contains all drive end components from the drive shaft up to and including the diaphragms. All Hydraulic Ends are factory tested and shipped with oil. To order a Replacement Hydraulic End, refer to the appropriate pump ordering page and specify the desired Cam, Diaphragm and O-ring Material, and Hydra-Oil.
